

Pastor Green was born and raised in St. Elizabeth, Jamaica.

Her journey to the Lord began on October 18, 1964 at Emmanuel Apostolic Church of Jesus Christ where she was baptized. She regularly attended church. One day, when she was 11 years old, she saw her pastor preaching and he began speaking in tongues – she decided that she wanted that! Five days later she went to a service and up to the altar where she received the gift of the Holy Ghost.

Her eldest brother migrated to the United States and in 1993 she got her visa and came here so that they could better their lives.

Pastor Green began attending Ebenezer Apostolic Church of Jesus Christ in New York City. She was a quiet natured person – but one of the elders said that although she was quiet, he saw something in her. At their Young People's Service he asked her to preach. She read a scripture and everyone said there was something powerful in her.

From that time she began working as a Youth Group Sunday School teacher, then she started to teach the Adult Sunday School class. She became President of the Sunday School Department, then President of the Youth Department some years later. She continued in the church for years and she became the President of the Ladies Department. Pastor Green continued to be by her pastor's side – being his assistant – and continued to grow in the Lord.

When Pastor Green moved to Maryland in April of 1994, she still continued attending her church in New York serving as the President of the Ladies Department. She was ordained as an evangelist in Jamaica and continued as a missionary/evangelist in that ministry for five years in New York.

In 2001, Pastor Green's pastor asked her to go back to Maryland - there was a ministry that he wanted to put her in charge of. The pastor at the ministry in Maryland gave up on the ministry & it automatically fell in her hands. It was placed upon her to continue with the ministry in her basement.

Pastor Green stayed there for a while then branched out to get a small building. They were still struggling, but still holding on by faith that God would bring them through.

Pastor Green's passion is to win souls for the Lord. She loves to pray and to encourage people in the Lord to be strong. She knows that entails winning souls and really helping in whatever way. Pastor Green wants to be there for people to help in any way or form. Pastor Green is married to Deacon Green and they have been blessed with three sons.
